# ESG Section

Each ESG area of the Check-Up has its own dedicated page, which includes the questions and your responses for that area, along with tailored improvement suggestions and next steps based on your answer to each individual question.

Model 231/01 helps companies prevent the risk of corporate crimes and ensure regulatory compliance, reducing the risk of sanctions and improving corporate governance.

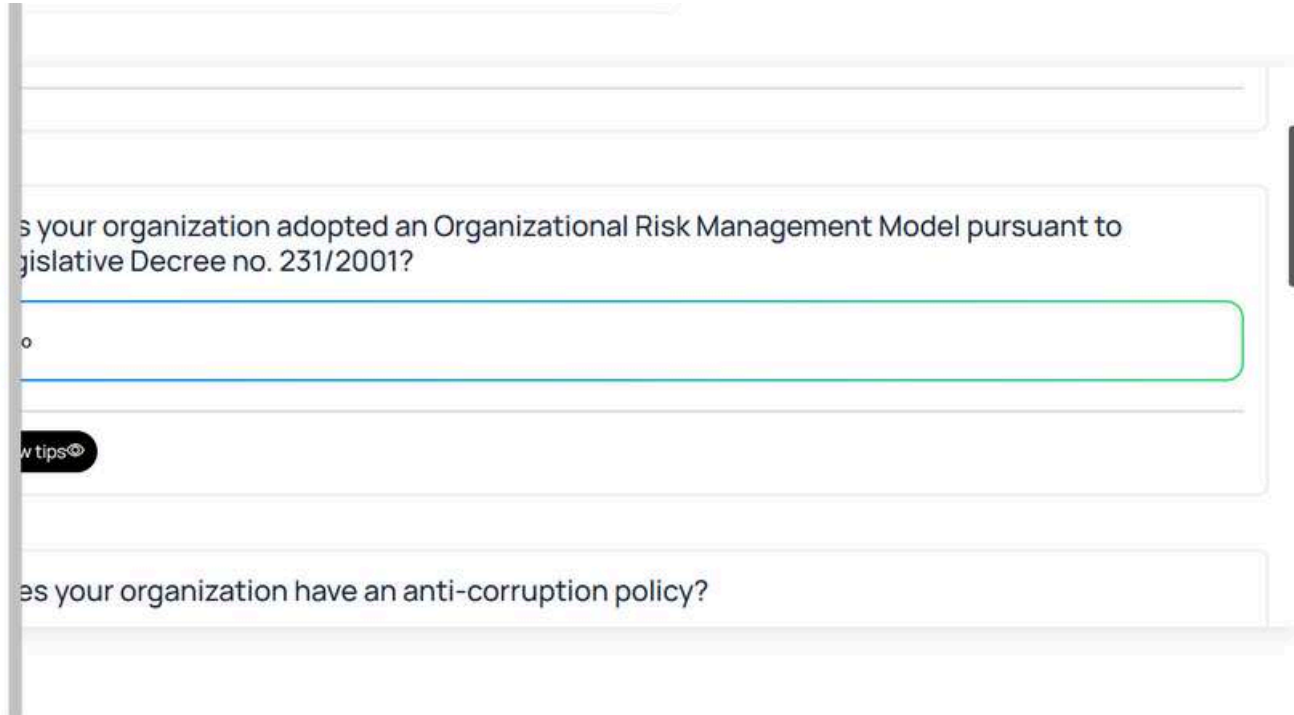

Here are the recommended first steps:

#### What is it about:

Model 231/01 is a management and control system introduced by Legislative Decree 231 of 2001 in Italy, which aims to prevent the criminal liability of companies for crimes committed by their employees. It includes protocols, procedures and a code of ethics to mitigate the risk of illicit behavior within the organization.

#### What are the benefits:

Adopting Model 231/01 is important because it protects the company from criminal, pecuniary and interdictory sanctions, improving its reputation and trust among stakeholders. It promotes an ethical work environment, reduces the risk of corporate

Is your organization adopted an Organizational Risk Management Model pursuant to Legislative Decree no. 231/2001?
